Sashim was the order of the day yesterday. There was a great plenty of snow, the only drawback being the unevenness of its distribution. On Broadway and Main street the snow plows were run all Saturday night and Sunday morning, setting the two sides of the track well packed up with snow to a height of two feet or more. The result was that in some places the road was so bad that it was difficult for the sleighs to navigate, while others the drivers had no trouble at all, only snow on the roads.

On the residence streets, however, the sleighing was much better, and everyone who could beg, borrow or steal a rig was out to enjoy the driving.

Every livery stable in the city had to refuse customers before 2 o'clock in the afternoon.

For a good driving horse and sleigh call on the Odgen livery, 135 Broadway; telephone 83. Sleighing parties especially.

## Big Improvements at Manawa.

There have been some important deals at Lake Manawa within the last few days, and while but little information has been given out enough has been ascertained to show that some very important improvements are under way. A good deal of new blood has been infused in the enterprise, and a good many thousand dollars will be invested in the contemplated changes for the coming season's business. Manhattan beach has changed hands, and is now held by a stock company, one of the prominent members of which is Mayor Shan of South Omaha, and the other is Mr. George H. Whiteaway, of Omaha South Omaha and Council Bluffs men. The price paid for the beach property was \$6,000. The steers were filled a week ago, but were brought into town recorders often after 6 o'clock accompanied by a request to keep the news from the reporters.

The nature of the improvements to be made are not yet clearly understood, but it is understood that the work will be both exterior and interior, and will consist in letting to the Milwaukee bridge company of this city to place a foundation for a large pavilion, which will extend into the lake eighty feet and will have a lake frontage of several hundred feet.

The plans are said to also contemplate a short-cut to South Omaha and the establishment of a ferry across the river not far from the outlet of the lake.

The improvements are to be made on the north side of the lake. Lake Manawa is to be moved to some other location, possibly across the lake. Within the last few days a great deal of material has been hauled and deposited on the south side of the lake. The work of driving piles on the south side of the lake, commenced, and an immense quantity of large timbers have been unloaded around the hotel for the purpose of moving it somewhere.

It is frankly stated that the new company is going to make Manawa more than ever popular as a metropolitan watering place. There was some regret expressed when it was announced that the steamer M. J. Rohrer had sold out to be taken over by the lake, but the new company announces that they will have two more first-class steamers ready for the season when it opens which will be much finer in every respect than the Rohrer and more suitable for the trade.

Purchasing and selling goods on the installment plan is in accordance with the modern business practices. It is a blessing to the people of small means, for it enables them to have all comforts and luxuries in their homes. The great installment house of Mandel &amp; Klein is the only one in western nowdays one of the largest anywhere. You can get every household article you want at lowest figures and on easy payments. 320 Broadway.

## The New Way.

Tomorrow is March 10, the day upon which all the saloonskeeps of the city must either "put up or shut up." As the injunction cases are still undecided and as the authorities have no desire to let the saloons run free, a new system had to be devised for collecting the fines. The way it is to be done hereafter is to serve a warrant on the saloonkeepers, notifying them to appear before the Municipal Court and defend against the charge of keeping disorderly houses. The saloon keeper will then come and deposit his appearance money. When the time for trial comes he will not be there, and the court will decide in his favor by default. In this way the city will receive benefit of the fine money, while the authorities will in no way put themselves at a disadvantage in the suits which are to come up for a hearing this week.

Prof. James McNaughton has returned from Mayville, Dak., where he has been teaching in the state normal school. He has met with good success in his work. He will spend several weeks in the Bluffs, returning to Mayville in July for the purpose of holding the summer institute.

## THE NEWS IN THE BLUFFS.

School Election Today Promises to Absorb a Great Deal of Interest.

BLAXSIN WILL HAVE A HARD ROW TO HOE.

Why He Is Unpopular—Rev. Mr. Gault on Sabbath Observance—Improvement in Contemplation for Manhattan Beach.

The election of school directors takes place today, and there are indications that a much fuller vote will be polled than is usually cast on similar occasions. On the republican ticket the candidates are W. C. Stacy and L. M. Shapley, while the democratic candidates are W. J. Jameson and George Blaxsin.

There is not much feeling manifested, on either side toward the candidates with the exception of Blaxsin. That gentleman has many enemies who will endeavor to drown him at any cost, and these gentlemen are not all confined to the opposing party by any means. There are many democrats who have gone back on him, some of them on account of the disloyalty which they claim Blaxsin has manifested toward the party, and others on general principles, their idea being that the welfare of the schools demands that all the present members of the board be allowed to retire from public life as fast as their terms of office expire in order to get rid of the discordant elements which have been clashing so vigorously for the past year or more.

But whatever the cause of the opposition may be, it is certain that the opposition exists and will come to the front today. In the board of education, however, there is no leader of his own party, and they now seem bent on punishing him for acts which many at the time highly condemned.

With the other candidates there is not likely to be much of a fight made for the election.

The election of school directors in the western part of the city have been clashing for representation on the school board ever since the two new wards were made, and until now Mr. Blaxsin has evidently been the leader of his own party, and they now seem bent on punishing him for acts which many at the time highly condemned.
